AMENDMENT PROVISION
All the partners of the Consortium as established in the Partnership Agreement relating to the Grant Agreement number 690984 signed 4th January 2016 agree to the amendments as presented below.

Article 1 – Accession of a new Partner
Université Paris Ouest Nanterre (UPO) become a full partner in the Partnership Agreement in all rights and obligations as of 15th April 2016.

Address:
Université Paris Ouest Nanterre (UPO)
200 avenue de la République,
Nanterre cedex 92001, France,

UPO is represented by its President, Jean-François Balaudé.

Article 2 – Ethics and user committee
Article 6.4.1 of the Partnership Agreement is modified as follows:

“6.4.1 Composition
The Ethics and Users Committee is made of the following project partners’ representatives:

- 1 representative of the Beneficiaries
- 1 representative of the non academic partners
- 1 representative of the other academic partners
- INED’s CIL (correspondant informatique et liberté)
- The scientific coordinator

Each party is free to nominate the representative it deems appropriate. He/she may not be involved in the secondments of DEMOSTAF.”

Article 3 – Financial provisions
Article 7.1.3 of the Partnership Agreement is modified as follows:

“7.1.3 Funding Principles
A Beneficiary which spends less than its allocated share of the budget as set out in the Consortium Plan (i.e. that organizes less secondments than planned in the Consortium Plan) will be funded in accordance with its actual duly justified eligible costs only.”
A Beneficiary that spends more than its allocated share of the budget as set out in the Consortium Plan will be funded only in respect of duly justified eligible costs up to an amount not exceeding that share.

As agreed by all Beneficiaries and Partners, a contribution to the hosting costs bear by the project African Partners will be transferred yearly on the basis of the total amount of time hosted in secondments. It should support the African partners for the additional costs incurred by hosting European Participants (printing, access to network, occupation of desk...). Each Beneficiary will transfer the corresponding share of secondments incurred by its own staff to partners. These amounts will be taken from the Beneficiary's overheads budget line and will not be reported under the research and networking costs. The share to be transferred to the African Partners is calculated on the basis of 50% of the overheads forfait planned for a month of secondment (i.e. 350 euros).

Within the Project, cost categories will be defined as such:

- **Staff member unit cost**: the monthly costs to be transferred to seconded staff should be of 2000 euros whatever the place the secondment takes place. As much as possible, it should be transferred to the seconded staff before or at the beginning of the stay.

- **Research, training and networking costs**: this category of cost will be used to both fund the travel expenses (travel tickets + visa costs) linked to the secondments (at least one per secondment), as well as collective activities of the network (including the three project events, and intra-European trips). Additional conditions are set regarding the use of this budget heading:
  - DEMOSTAF will support one international travel for one month of secondment.
  - In case of split secondment that cannot be avoided, the Research, training and networking budget heading will be used to cover a top up for the Participant, allowing him/her to benefit as much as possible of 30 euros of daily allowance for working days and 45 euros for weekends.
  - For the organization of short-term stays not considered as secondments, the usual practices of each organization apply.

- **Management and indirect costs**: this cost category is managed by each beneficiary according to its own principles. However, the redistribution of hosting costs to the project Partners is beared on this line of the budget and not on the Research costs."

**Article 4 – Hosting and security conditions**

Article 8.2 of the Partnership Agreement is modified as follows:

"8.2 Hosting conditions"

During their secondments, Participants will be granted access to the minimum conditions to carry out their research work. For the purpose of this agreement, hosting conditions are defined as:

- the provision of a clear visiting fellow status within the hosting organization and associated rights and obligations and the administrative support for academic purposes including an office space;
- the possibility to use the IT and documentation resources provided by the hosting organization;
- the possibility to be in regular contact with local researchers for scientific exchanges and counseling, and to access to local scientific seminars in the Participants' field of research.
- Each beneficiary must ensure that the Participant it hosts or sends abroad is covered by a health insurance during this stay. Beneficiaries are responsible for
proposing a health insurance solution to the Participant. However, Participants are free to choose their own solution.

During secondments, all Participants are subject to the internal rules of the organization hosting them.

During the secondment period, the institution where the seconded staff is affiliated retains hierarchical and disciplinary authority."

Article 5 – Access rights and data use

Article 10.5 of the Partnership Agreement is modified as follows:

"10.5 Collective agreement for data access and use (Type 2)

WP4 and WP5 contain specific collective activities which necessitate a access to several sets of data. For all tasks, access conditions are set by this Partnership Agreement.

Censuses of three countries (Burkina Faso, Mali, Senegal) are included:
- BF-Census 2006
- BF-Census 2016 (forthcoming)
- ML-Census 1998
- ML-Census 2009
- SN-Census 1976
- SN-Census 1988
- SN-Census 2002
- SN-Census 2013

The 10% sample provided by the NSOs can be analyzed collectively during the duration of the project. The different partners institutions (even among the other WPs) have access to this sample.

The anonymized individual data will be analysed to produce indicators at disaggregated geographical levels (« communes »), in addition to statistics at national and regional levels. The anonymized individual data from the censuses are provided by the NSOs (INSD, ANSD, INSTAT Mali). NSOs staff members will be involved in the analysis of the data during their secondments period organized in Europe and during collective activities that will be organized in their own institution, in collaboration with their individual academic partners. The data will be kept on secured laptops of the NSOs staff members during their secondments.

Results from these activities will be jointly owned by the partners that generated them. As a result, co-authorship rules as defined in 9.4.2 apply."

Article 6 – Provisional Budget transfers from Beneficiaries to African Partners

Attachment 4 of the Partnership Agreement is modified as follows:

"[Attachment 4: Provisional Budget transfers from Beneficiaries to African Partners]

Provisional budget to be transferred – on the basis of 50% overheads to African partners receiving European staff (=350 euros per hosted month). Will be updated each year on the basis of the actual secondements (including split ones)."
